

United States of America

The USA is the classic exchange country par excellence. The „land of unlimited opportunities“ is very hospitable and welcomes many thousands of foreign students every year. „Cultural exchange at home“ can be said for this: Instead of perhaps going on a trip abroad, many Americans get to know the foreign culture at home by hosting an exchange student. And they are happy to be able to introduce and bring their country, their culture and their way of life closer to the guest.

Family

A stay in the USA means that you will live with an American family. This „host family“ will be your new home for around 5 or 10 months. The family chooses their „new temporary family member“ themselves and will be happy if you feel comfortable with them. You can live in the family home like your own child and will participate in joint activities and meals.

School

School in the USA - that means: Choose what the offer offers! There are only a few compulsory subjects, the rest of the timetable you put together yourself according to the subjects offered by your host school. Your „School Counselor“ can help you with this.

In the USA there is a course system; you may be able to choose subjects you've never heard of before.

Sports and Clubs

From Monday to Friday you can spend the afternoon at school. There, sports are particularly popular or one of the numerous „clubs“.

In the USA, sport is a big topic. There is hardly a school that does not offer various sports. Almost every school has „its“ sports team, which is regularly cheered on. You might even be able to participate in some competitions. And if you don't have much to do with sports, you can choose a „club“ – so there could be the club „Band“, or „choir“, „theatre“, „free speech“, „business“, „driver's license“.

Language

Getting used to the language is usually very fast, because the people around you speak their mother tongue. Soon after arrival, most of the guest students feel comfortable surrounded by native speakers, and after several months they often have an excellent command of the language. Of course, the very first conversations with your host family, classmates or teachers can be a bit „bumpy“, but everyone will understand that.

Age: 15 - 18

Beginning:
August/September
January

Prices:

1 school year: 9,999
1 half-year: 8,999

School choice from 15,999
