

# Great Britain (U.K.)

## *The „British Way Of Life“*

### Much more than English in England

„The British Way of Life“ - i.e. the typical British lifestyle - you can best get to know it as a guest of a British family and as a student of a British school. Great Britain, United Kingdom (English: United Kingdom, U.K. for short) - this is much more than „England“. These include Scotland and Wales (and Northern Ireland). Your impressions as a guest student in Great Britain will be just as extensive. Today, the former empire is a melting pot of cultures, especially in the big cities - people come to the island from all over the world. Why not you?

### Accommodation

In the UK, you will live with a host family like a „temporary family member“. The host family is carefully selected and checked. Unlike some other countries, host families in the UK receive a subsidy for hosting you. This also explains the higher program price for the Great Britain program. However, the host families are no less friendly and interested in you; rather, hospitality and cultural exchange are also in the foreground here.

Your host family can basically live anywhere in the UK; without a desire for a region, accommodation in England is normal.

### School

The British school system is generally recognised as good and is a model for many countries in the Commonwealth. In your host school, you will have compulsory subjects, elective courses and elective courses, including such interesting subjects as „Photography“, „Art and Design“ or „Hairdressing“. As a 16 or 17-year-old, you will usually go to the upper secondary school, the „6th Form“ in Great Britain.

Age: 16 – 18

### Prices:

1 half-year: (from) 10,999

1 Trimester: (from) 8,999

1 school year / school choice from 19,999
