

# Spain

*Olé España!*

Going to school in the European country where many go on holiday! Does that sound good?

Ideal for anyone learning or speaking Spanish: going to school in Spain.

Beyond the popular holiday beaches, the country's schools are really „cramming“, for older pupils this happens in the „Bachillerato“, the upper school.

A Spanish host family will be arranged as accommodation. The hospitality of the Spanish family allows a deep insight into the everyday life of the people and the customs of the country.

Spain offers a rich history and modern present, captivating architecture and technical modernity, many traditions and numerous culinary delights! All this and much more promises an inspiring adventure for all young people who want to broaden their perspective and have lifelong experiences.

Such a guest school visit offers fascinating opportunities to overcome cultural boundaries and gain unforgettable experiences.

During the exchange, students can experience Spanish culture first-hand and improve their language skills. In addition, the student exchange offers the opportunity to make new friendships and develop intercultural skills.

If you want to come to a certain region of the Iberian Peninsula, you can make a „regional choice“, for example the south with Seville and Malaga.

An ideal start to the Spain experience is provided by an optionally bookable introductory meeting at the beginning of the trip, which is usually held in Barcelona.
